Morning departure at 8 a.m. from the hotel for the Claude Monet Foundation in Giverny.

A must-see in Normandy, Monet's gardens at Giverny illustrate the Impressionist soul. Passionate about color, paintings and flowers, this unique site is the gateway to the gardens of Normandy. Famous for its water garden, pond, water lilies and famous Japanese bridge, Claude Monet's garden reveals all its secrets. The garden is open all year round. In spring, the tulips await you. They give way to irises, then roses in June... It's a permanent explosion of color.

Then it's off to the famous cliffs of Étretat in Upper Normandy to admire the famous arches and the Aiguille du Midi.

Étretat is a powerful site, where man is in direct contact with nature. The stunning verticality of the Côte d'Albâtre cliffs contrasts seamlessly with the gentle roundness of the shoreline. Will you be tempted by a trip out to sea, or would you prefer to discover the cliffs via the paths overlooking the English Channel? Whether you're on your little ship or atop these limestone majesties, you can't help but marvel at the splendor of a landscape unique in the world.
